

## PBM SERVICES FOR TAFT-HARTLEY HEALTH & WELFARE FUNDS

*Offering clarity and ways to save money on your Rx benefits.*

Crystal Clear Rx will provide your Funds with unbiased insight and strategic direction through our unmatched experience, state-of-the-art analytics and integrity.

As your partner and trusted advisor, we wear many hats. We work only for your best interests and our goal is to ensure that you receive the full benefits afforded from your current PBM arrangement. Our unique approach has saved our multiemployer clients up to 15% on their pharmacy expenditures.

Years of working in the PBM industry as both pharmacists and client services personnel has allowed CCRX to identify three key steps for success.

### OUR THREE-STEP APPROACH

- 1** We analyze your current situation to identify red flags and areas of concern within your PBM agreement. We assess how your plan compares to the current market standard, determine if your PBM is in financial compliance and target areas where you are paying too much.
- 2** Based upon the outcome of Step 1, we recommend the best approach to take and can assist you in navigating that process.
- 3** CCRX will review your plan on an ongoing basis to see what is working, what is not, and whether corrective measures should be taken.

## OUR PRODUCTS

**Crystal Market Check** — This standalone product determines if you might be paying more than you should for your current prescription benefits. We educate you about average ingredient cost by unit, dispensing fees, AWP discounts and MAC dispensing rates and tell you how they compare to industry benchmarks.

**Crystal Audit** — We audit your PBM to determine if you are owed any money. Our team works with your PBM to carefully assess performance and compliance levels when compared to contractual financial guarantees.

**Crystal View** — Crystal View produces actionable reports and information that PBMs may not choose to provide. It comprises a suite of quarterly, go-to reports that remain the same if you switch PBMs. They can be used as a great forecasting tool. We monitor financial and utilization performance that will help you better understand patterns and trends.

**Crystal Perform** — Rather than waiting to do an audit, we conduct quarterly checks of your PBM's performance against contractual financial guarantees to ensure you are optimizing your spend each step of the way.

**Crystal Impact (Monitoring)** — The pharmacy benefit is dynamic and there are many ways your fund may be spending more than it should. This program helps identify issues with your benefits, so you can address them on a quarterly basis and not wait for the end of the contract period.

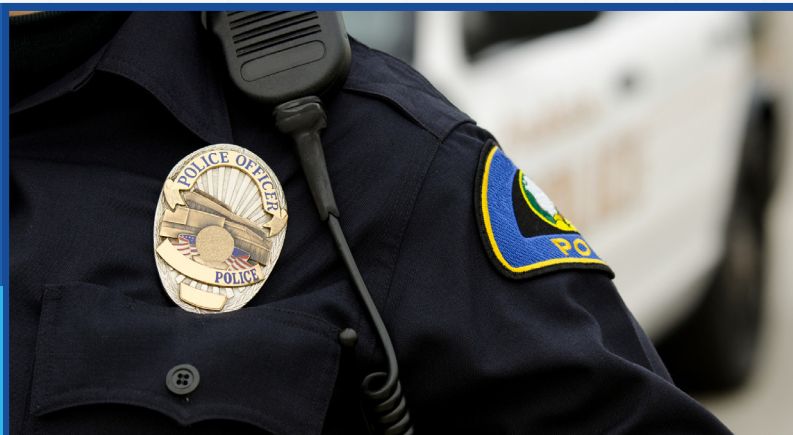

*"... After 44 years of being a Group Health Administrator and Consultant, Crystal Clear Rx provided tangible results for our plan. My relationship with CCRX is one of the most trustworthy and appreciated relationships I have. I recommend that every plan sponsor who currently does not have a PBM consultant to review their PBM transactions for pricing accuracy retain Crystal Clear Rx ..."*

**- Ken Stuart, Administrative Manager at the San Diego Electrical Health and Welfare Trust**

**Crystal Patient Engagement** — Our Patient Engagement consulting service offers relevant and actionable drug information to help you move toward the most optimal therapies from both a financial and clinical perspective. This may include lower cost alternatives, duplicate therapies and generics. Our goal is to reduce your drug spend.

**Crystal Select** — CCRx provides expert consulting to help you identify if a new PBM contract is needed or whether a Request for Proposal (RFP) is appropriate. We'll discuss the pros and cons of conducting a formal RFP versus a renegotiation or more limited PBM review. Should certain services, such as Mail Order, Specialty Pharmacy or rebates, be carved away from a PBM vendor, our team will work with you to find the best solution and execute a contract that holds all vendor(s) accountable for your Fund's best financial interest.

Our previous experience with the multi-employer market combined with our team of industry experts means we can help your Fund achieve significant savings on your Rx Benefits.
